From a single critical part to a complete imaging project.

DIRECT ACCESS TO EXPERIENCED SPECIALISTS

END-TO-END CAPABILITY

One partner. Every critical step. Less friction. More uptime.

01 Equipment sourcing

Pre-owned CT, MRI, PET/CT, Cath Lab, C-arm, X-ray, mammography, and ultrasound systems.

02 Inspection & documentation

Detailed visual and technical review, available QA reports, configuration data, images, and service history.

03 Deinstallation & packing

Coordinated deinstallation, handling, protective wrapping, and custom crating for complex systems.

04 Global logistics

Export documentation, freight coordination, customs support, and shipment planning to worldwide destinations.

05 Installation & commissioning

On-site installation, system setup, testing, commissioning, handover, and staff training where required.

06 Spare parts supply

More than 14,000 parts across major OEM platforms, with rapid identification and same-day dispatch on most orders.

07 Trade-in & asset recovery

Structured support for hospitals and clinics selling, upgrading, or responsibly relocating imaging assets.

08 Technical advisory

Practical guidance on system selection, compatibility, lifecycle planning, and parts sourcing.

MODALITIES

CT

MRI

PET/CT

CATH LAB

C-ARM

X-RAY

MAMMOGRAPHY

ULTRASOUND

Built around movement.

A controlled path from source to site.

01

SOURCE

Equipment and parts selected from trusted channels.

THE NOVO DIFFERENCE

Direct. Responsive. Built for real-world uptime.

WHO WE SUPPORT

- Hospitals & clinics
- Imaging centres
- Independent service organisations
- Medical equipment distributors
- Project developers & investors

WHY CLIENTS RETURN

01 Specialists, not call centres

Direct communication with people who understand imaging equipment and parts.

02 Transparent documentation

Clear condition information, configuration data, images, and available history.

03 Fast fulfilment

A large in-stock parts inventory and coordinated logistics reduce unnecessary delays.

04 Multi-vendor expertise

Experience across Philips, Siemens, GE, Canon, and other major platforms.

05 One accountable partner

Sourcing, packing, export, delivery, installation, and support managed as one workflow.

40+

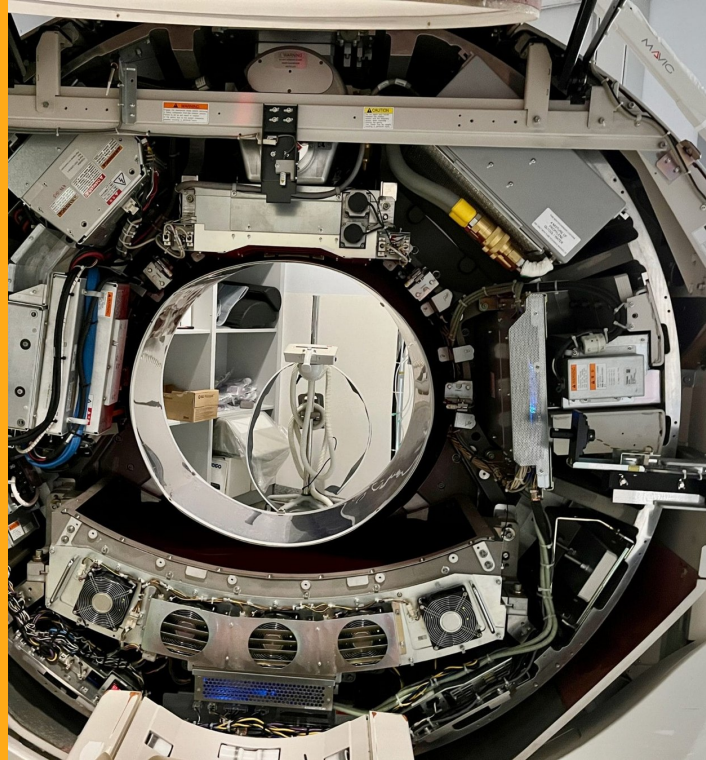

COUNTRIES SERVED

Supporting international projects with export experience, responsive communication, and dependable coordination.

LET US KEEP IMAGING MOVING

Built on trust.
Driven by quality.

”

Every moment matters. Every life counts. That is why we work with urgency, care, and personal responsibility to help healthcare providers get the equipment and support they need.
